FIGHTING THE CONCEALED POISON—Strike at the source, not at the symptoms. Remember that symptoms are the evidence of nature's conflict with disease. They tell us that the animal powers are fighting the concealed poison. Aid and reinforce them with that genial yet powerful restorative, Bristol's Sarsaparilla, and the result cannot be doubtful. No disorder, not organic, can resist such an alliance. The enemy is in the veins. Therefore is great discergent will find it, and thence expel it. That done, the cough that indicates consumption, the sores that denote the presence of scrofula, the terrible suffering of body and mind which accompany a diseased stomach, and an unnatural condition of the bowels, disappear. This pure and potent vegetable and antiseptic tonic and alterative cleanses regulates, and invigorates the whole internal organisation, and the cure is complete. By the use of Bristol's Sugar-coated pills at such time as the Sarsaparilla, the stomach and bowels will be cleansed and strengthened, and the disease more speedily thrown off. cj..n21

The 'North' Mails.

TWO DAYS LATER FROM ENGLAND.

Capt. Maine, of the new Live-cattle steamer North, has brought Cork papers of Oct 22nd, with the following news.

Fever is on the increase in London, and especially typhus fever. If, says Dr. Whitmore, in his monthly report, the winter be a severe one, he anticipates a great mortality from bronchits pneumonia, and kindred diseases, owing to the dearness of fuel.

Sad ravages continue to be made by the cattle disease in Oxfordshire. At Nottingham, Grimsbury, Banbury, and generally throughout the county many animals have succumbed to the disease. Stock breeders, together with the authorities, are adopting precautionary measures to stay its ravages. The value of the animals killed amounts to several hundred pounds.

At a meeting of Conservatives in the borough of Finsbury, yesterday, it was announced that Colonel Richards, editor of the *Morning Advertiser*, will stand at the next election in the Conservative interest.

Sir William Eden, Baronet, of Windlestone Hall, near Bishop Auckland, died this morning aged 70.

Mr. Reed addressed a large meeting of the electors of Hull last night. He was received with great enthusiasm. Colonel Pease addressed a meeting of shipwrights last night. The polling takes place to-day (Wednesday).

Messrs. Johnson and O'Leary, agents of the Irish Union, are proceeding to Washington, to arrange for a gigantic exodus of Irishmen to the Western and Pacific States of America.

A Washington correspondent says the Superintendent of the Mints there has arranged for the coinage of ten million dollars in double eagles every month, until further orders. The Mint has five million dollars in hand in gold bars; while the New York Assay Office fund has been increased by three million dollars in United States coin, for the payment of deposits of British gold. The Secretary of the Treasury, it is said, anticipates further heavier shipments of British sovereigns, and a great addition to the amount of gold in the market during the next three months.

The Tichborne Trial.—It is now considered probable that the evidence for the defence will close this week. A lady whose name stands identified with deeds of great munificence, has announced her intention of providing £42,000, to enable the claimant to recommence proceedings with the view of establishing his right to the title and property.

THE WESTERN RAILWAY.

On Tuesday the Provincial Legislature accepted the proposed works of Mr. Palemon Huergo for improving and prolonging this line, and authorized the Government to raise the effective sum of £920,000 sterling in England, by 6 per cent Debenture bonds, to carry out the proposed works, which are as follow—

1. Grand terminus at Once de Setiembre, to cost 45 millions currency.
2. Double line to Moreno, estimate 14½ millions.
3. Prolongation from Chivilcoy to Bragado, 32¾ millions.
4. Brauch to Barracas and Boca, 10½ millions.
5. New workshops at Once and relaying Lobos branch, 13¾ millions.

The works make up a total outlay of 116,713,204 $ m/c., equal to £fts. 4,668,528, which will be a trifle over the amount that it is proposed to raise in London.

Some of the items differ from the statement drawn up last May by Messrs. Huergo and Ringuelet, to which we may refer for information on the works in question.

As regards the grand Once terminus the cost was then put down at 36 millions, as Mr. Huergo proposed to sell the Parque station which he calculated would realize 9 millions, and thus reduce the first estimate of 45 millions, at the same time abandoning the passenger traffic from Parque to the Once, which has proved a dead loss since the opening of the tramways. It would now seem that the Government do not mean to sell the Parque station or give up this section of traffic, although it gave a loss of 8¼ per cent last year. The Once terminus will doubtless be a magnificent work, costing £360,000 sterling, and meet all the requirements of a rapidly increasing traffic.

The double line to Moreno is chiefly because of Merlo junction and the need for half-hour trains to and from Flores. The cost of 25 miles, with steel rails, is put down at £120,000 sterling, say £4,800 per mile, and Mr. Ringuelet promises to do the work in 12 months. The goods traffic between Moron and B. Ayres showed last year an increase of 12 per cent. over 1871.

The long-promised line from Chivilcoy to Bragado, which will take us 30 miles further towards the Andes, is estimated at £8,733 per mile, offering no engineering difficulty except the Rio Salado: this will be crossed by a bridge of 165 feet, in 5 spans. There will be also six small bridges. The line goes over level sward, making one or two curves to avoid swampy places. The permanent way is to be Livesey's 60 lb. steel rail. There will be two intermediate stations, the first 10 miles from Chivilcoy, the second 7 miles this side of Bragado. The estimates for the 30 miles are—

Permanent way.....	£107,000
Rolling stock.....	49,000
Stations and bridges.....	34,000
Int. during construction..	33,000
Earthworks.....	14,000
Land purchase.....	6,000
Sundries.....	20,000
	£262,000

The branch to Barracas and Boca is a prolongation for 4 miles, of the Basura line, for the purpose of facilitating the loading or discharging of merchandise at the Riachuelo. The cost would be £83,000, the line being of steel rails, and Mr. Huergo shews that it would pay for its construction in 2½ years, producing about 4 millions currency per annum.

New workshops, or rather an enlargement of the existing ones, which are really a credit to Buenos Ayres, will require an outlay of 2 millions, or £16,000. Another item of less moment is £4,000 for removing a gradient at Moron and thus saving steam-power. There is still a balance of more than 11 millions, say £90,000, most or all of which is to be spent in renewing the Lobos branch (45 miles) which was cheaply constructed a couple of years ago and now calls for fresh expenditure, the line last year being unable to pay working expenses.

It cannot be said that any of the above items are a needless expenditure, since they are imperatively called for, to put the great railway of B. Ayres on a proper footing and give the necessary accommodation for a line that carries a million passengers and many thousand tons of merchandize yearly, representing a gross traffic equal to that of all the other railways collectively.

The Western Railway shews a total cost up to the present of 186 millions or £1,500,000 sterling, being exactly £10,000 per mile: the main line to Chivilcoy is 100 miles in length, the Lobos and lesser branches 50 miles. During the 16 years since its first section was opened it has had a happy immunity from accidents, and renders valuable services to the public, as well from the general good management and regularity, as owing to its very moderate tariffs.

Under these circumstances we should suppose there will be no difficulty in raising a million sterling, say at 90, by the proposed Debenture Bonds, bearing 6 per cent. interest and 1 per cent. sinking-fund.

The Chambers declare the debt of the Railway to the Provincial Bank cancelled, which seems to say that the Bank is to write off the 71 millions it lent the Railway. At least no visible funds are provided for repaying the Bank, although we should prefer to see the Government create 71 millions in 6 per cent. Prov. Bonds and hand them over to the Bank for the sum due.

PHILLIPS AT HOME.

Mr. Phillips' second appearance at the Victoria Theatre proved an immense success; it was, if possible, better than the first. The first part commenced with a pianoforte solo by Mr. Herbert, which was rendered in a most masterly manner; indeed, throughout the entire performance this gentleman proved himself of great value as an accompanyist and also by playing choice 'morceaux' between each 'illustration.'

Phillips, if possible, excelled himself in his imitations of London actors; his 'Lord Dundreary,' was this time first rate, and 'Brother Sam's Letter' brought down the house. In his imitation of the Moore and Burgess Minstrels he introduced a very pretty ballad, 'Norah O'Neil,' which was much appreciated; also the specimen of Yankee Courtship, 'Popping Corn.' Then the 'Broken-hearted Sheepfarmer' provoked roars of laughter, and Mr. P. was compelled to repeat the last two verses.

'Dramatic Amateurs' made the theatre ring again with the mirth provoked by his description of his first appearances in Julius Cæsar, Romeo and Juliet, and the Ghost in Hamlet. The Kilkenny Assizes went even better than ever; and then came The Ethiopian Carnival. As a nigger we consider Phillips without a rival. He imitated a railway train which he humourously described as The Ferro Carril del Norte, or 'naughty' Ferro Carril. Pussy Cat sent people into convulsions of laughter, and 'Some one in de house wid Dinah' was immense. The Discurso á las niñas, Carmencita de Chivilcoy, and the Bone Solo concluded a very delightful evening, and, as a most convincing proof that every one was satisfied nobody attempted to leave until the final 'God save the Queen' announced the termination of 'The Variety Show'.

ROSARIO.

Nov. 18th 1873

The Municipality is in very hot water, occasioned by the efforts of one or two of its members to make it an instrument for electioneering purposes. But the corporation is showing itself equal to the emergency. It has annulled the elections of October, in which a hundred and eight voters did what they pleased. The principal object of the contending political parties is to get their own creatures elected of Jueces de Paz, and these are elected by the citizens of the Municipality and paid by this body, and can use great influence not only in the general elections but in the inscription lists; thus we have the Municipality mixed up with politics. This lamentable result was not foreseen, or there would have been a separation made between the Judges in Municipal affairs and general affairs. As it is, the Municipality is dragged into the vortex of political passion because its own subordinates, the Jueces de Paz are also those nominated to register the general inscriptions. The Municipality has ordered the Registers of inscription to be reopened for three days, and two of the Judges have refused to obey. We shall know probably before I despatch this letter, what action the corporation will take.

A respectable meeting of Englishmen assembled on Sunday at the house of the Rector, Mr. Coombe, to take into consideration the situation of the English immigrants from Paraguay, and more particularly to provide lodging and attendance for about thirty who are not only destitute but sick. The gentlemen present were: Messrs Coombe, Fisher, Woods, Perkins, Simpson, Barnet, Thompson, Templeton, Eggington, Baines, Boardman, Mr. Davison of Buenos Ayres and others.

Mr. Perkins was voted into the chair and Mr. Baines Secretary. Mr. Thompson having generously offered a commodious house to serve as an hospital; a committee was formed, composed of Messrs. Coombe, Fisher and Templeton to furnish the place with beds and every other necessary. The whole meeting was formed into a general committee to collect funds, six hundred dollars being subscribed for on the spot by those present. Many of the immigrants have already found places, and many, strange to say, are very difficult to please, and appear to think that they have done us a great favor saddling us with their rags and misery; with the exception of a gardener or two, none have an idea of agriculture. A pretty set of 'Lincolnshire Farmers'!

On Monday the popular Commander of the Lamport & Holt steamer Thales, Captain Ferguson, with our well known popular friend Captain Thompson, the agent, entertained a select party of Englishmen and other foreigners on board with a stunning lunch. Toasts went round as rapidly as the Champagne bottles, and Captain Ferguson was obliged to get up a half a dozen times to return thanks for the toasts given in honor of the company and their magnificent vessel. Among the ladies present were Mrs. Simpson and Miss Hart, lately arrived from England. The mercantile or commercial union of Buenos Ayres and Rosario was drank with enthusiasm, and Mr. Davison and two more gentlemen from B. Ayres made very neat and appropriate speeches.

Who would have dreamed 5 years ago to have witnessed such a sight! One of the largest and handsomest European steamers lying alongside the railway wharf, with lots of water under her keel, in the port of Rosario. The cabin and state rooms of the Thales are very handsome, comfortable and roomy, and a passage in her must be something luxurious. Captain Ferguson is a pioneer on this line, and has conquered a high reputation.

I understand Mr. Woods is to start for Europe within a week, by way of Chile, San Francisco, and New York—a long but a very interesting trip. He carries with him all the good wishes of us Englishmen.

Mr. Sarmiento suddenly tumbled down on us on Tuesday, and on same day a part of the cavalry of General Ivanowski arrived. The General himself arrived two days before with the 3rd Regiment of the Line. No one knows the object of the President's visit, but suppose the press of the capital gives the right reason—to hold a conference with his newly made General. No one believes that he will go to Parana, although I really do not see anything improbable in the extension of the trip.

The iron mole of the Central Argentine Railway is rapidly progressing, and is a splendid work. It is to be six hundred feet long, and will allow two of the largest class ocean steamers to lie alongside and discharge or load at the same time, or half a dozen sailing vessels. A railway for the steam crane runs along its entire length. In front of the station is the real port of Rosario, although private interests forced the Government to place the new Custom-house opposite the old port, where the current runs like a mill-sluice.

The crops, as your brother editor had the opportunity to observe lately, are, scarcely without an exception, very fine. The rain and close weather occasioned apprehensions of the rust, but as yet no harm is done. The yield in this province, should no misfortune happen, will be very large, and the grain promises to be of a good quality I have samples of wheat four feet long and with beards of five inches, not full grown yet.

P.S.—The President remained only a few hours in Rosario. H.E. left the same evening of the day of his arrival, accompanied by General Ivanoski and the Rosario band of music, which the Gefe Politico lent him. This trip is the topic of conversation here, as well as in Buenos Ayres; no one knows its real object, so it is useless to surmise.

The Municipality last night decided on discharging the rebellious Jueces de Paz, and have nominated the Tenientes in their place. The new elections take place on the 14th of December.

EDITOR'S TABLE.

The Pacific steamer Magellan appeared off the Mount yesterday from Liverpool 'au point du jour.' Her news is good, bad and indifferent, but the first predominates. The Bank of England rate is the same, but that of the Bank of France is one per cent. higher; money is absurdly abundant in London. M. le Comte de Chambord has given utterance to the usual platitude about preserving peace with foreign powers in case he is elected King—a kind of 'la Royaute c'est la Paix' programme, that means nothing and says less (no 'bull'). Things in Spain are in the old shivery-shaky condition—Carlists beaten here, Intransigentes still holding out there, and the proposed Loan in London nowhere. The worst news of all is that the Grand Opera House in Paris, the finest structure of the kind in Europe, and the pride of the Queen of Cities, has been burned to the ground. We trust this is not the doing of the Communists. The most thrilling news of all however, is that Prussia is going to do justice to Denmark and restore to her the Danish portion of Schleswig Holstein. The very name of this place is enough to give Europe fits, lest the incomprehensible question connected with it should again rise to the political surface. If Prussia does this, she'll play Tom Walker with the English Cheese market, and give a tremendous fillip to the Horse fair at dear, old Ballinasloe, as Schleswig rules Europe in the way of black horses and milk-white cheese; the brave Danes make the latter by steam. What can be Bismarck's object in rigging the cheese markets of Europe? Moron had better look out. Tichborne is now winning 'hand over fist;' Mr. Whalley has n't abused the Pope for a whole week, he is so delighted. London Society now declares that our fat friend 'is the man,' and the Jury will probably endorse the verdict. It is needless to remark that Dr. Kenealy is an Irishman.

The tin chimney again! The whole neighborhood will be poisoned if this insufferable nuisance in our back patio is not suppressed at once. Clouds of filthy smoke continue to issue from this tin abomination; all our printers have got sore eyes and throats from it, and Mr. Alzaga, who lives behind us, is having his furniture and commissariat destroyed, as every ounce of the smoke goes straight through his drawing-room and larder. Mr. Hibbert, formerly of the Gore, is also a heavy sufferer, his finest cream-laid, his latest novels and his postage stamps being all gradually ruined by this shameful nuisance, which should not be permitted for 24 hours in any densely populated city. We again call on the Municipality for justice and redress.

Mr. Albert Phillips's Variety Show on Wednesday evening outdid the first in many ways, and was a most decided success. The rain, unfortunately, interfered somewhat with the attendance, which was not quite so numerous as on the previous occasion; but, 'en revanche,' it was more aristocratic, most of the leading English families in town being present. There was far more laughter and general jollity than at the first Show, and Phillips was in splendid 'blood.' Several gentlemen present suggested asking Mr. Phillips to give a benefit for the British Hospital, as he did on his very first appearance in this city years ago. We have no doubt he will accede to the request, if made.

The French steamer Emyranthe brought 266 immigrants. Three hundred new arrivals were lodged in quarantine yesterday at Ensenada.

Every one knows that our colossal contemporary *The New York Herald*, having found Livingstone (or said so, at least), has now sent the same Man Friday, Mr. Stanley, to hunt up the North Pole. We have no doubt it will be found under tremendously exciting circumstances. The last telegram from young Bennett to Stanley before he disappeared northward was Napoleonic in its imperial laconism: "*Find* the Pole!" 'Nada mas.'

The Patriotic Society of Mecklemburgh has sent our esteemed and earnest colleague Mr. Ernest Oldendorff an Honorary Diploma, as a marked recognition of the invaluable services he has rendered the agricultural interests of that country.

The rain on Wednesday night was delicious. It began about the time when Phillips was singing 'The Broken Hearted Sheep farmer,' at the Victoria Theatre, and continued, with intervals, till 4½ p.m. yesterday morning. Jupiter Pluvius has become rather capricious lately. As on Monday night, it did not rain a drop at Flores, while the unfortunate Lomas was all but drowned out. It was supremely funny to note the contrast yesterday morning between the daily bread men from Lomas and those from Flores. The first came in to business covered with mud, in waterproofs, top-boots, their worst hats and best umbrellas, while the 'Village' men were resplendent in patent leather boots and white waistcoats, with flowers in their button holes, and looking as dapper as purple and fine linen could make them. We have not heard if it rained at Quilmes, but the gentry out there are in enormous spirits, as one of them caught a glimpse of the tail of the coming Comet the night before last, and all the neighbours look on it as the certain precursor of a let-up in the price of land. This would be better than rain, any day in the week.

A splendid oil painting representing the arrival of the Robinson & Fleming emigrants at Asuncion is now on view at Messrs. Fusoni & Maveroff's. The artist is Mr. Sansom, a young painter of great promise, who came out with the emigrants. The picture, which contains over 200 figures, several of them portraits, possesses considerable merit and is well worthy the attention of connoisseurs. Much talent is displayed in the conception of the picture and the grouping; the coloring is peculiar. We opine that, with study, this talented artist has a successful career before him. Mr. Sansom has also painted another sad episode of this unfortunate colony—'Emigaants dying at Itapé'—and several landscape sketches taken in Paraguay. The young artist gives lessons in painting and drawing.

The most astounding news was received by telegram from Rosario yesterday. The first version was that the President's ship, the Emilia, in firing a salute, had mistaken ball for blank cartridge, and blown the new National College into smitheroens. Everyone jumped three feet out of his boots with amazement, till another telegram set things right. It appears that Mr. Sarmiento, wishing to see how the cadets handled the 'mitrailleuses,' had them landed, and, as there was nothing better, or worse, to be had, he made a target of the new National College and peppered it splendidly. The excellent people of Rosario were rather astonished at this free and easy treatment of their Alma Mater; but no damage was done to the wall, and it was indispensable to try the 'mitrailleuses,' before using them on the rebels.

It's an ill wind that blows nobody good. The piece of the Colonia cable which fell a victim to the vandalism of a foreign ship captain, and created such a sensation on the Bolsa last week, is now on view at Lambaré, on the Flores road. For eight long years this strip of cable lay snugly in the ooze and mud of the River Plate. Could Science tickle the memory of this coil, what secrets of fortunes made and lost through its agency, what latests from Europe, what ups in wool and downs in bones, what tales of blood, bliss and 'bolas' could it not unfold? That wire, subscribers, flashed 37,000 STANDARD telegrams (5000 during the Franco-German war alone) in the course of its career. It shook the Plate since 1866 with news of crumbling dynasties, the fall or empires and the crash of worlds. Its most stunning announcements ever came preceded by the magic words 'O'Gorman to STANDARD,' and it is fitting that it should close its career in our possession. The garden at Lambaré, where the interesting relic is deposited, will be thrown open to the Buenos Ayres Public for three days, subscribers free. Anyone found with hatchets or coal chisels in his pockets will be prosecuted according to law. We think it but right to call on the Marker to make a round score for Flores and its Road, which, in the possession of this cable can boast of a relic before which live Limerick Salmon at the Lomas, or anything else, alive or dead, at Quilmes, Belgrano, or any other place, must pale its ineffectual fires. We thank thee Captain, for cutting the cable; aye, though every man in the River call thee a Goth, *we* thank thee!

The following advertisement is from a Boston paper: "The devil's got a mortgage on Boston. Everything is going to burn up. I'm going to leave. Will sell my piano, melodeon, and sewing machine to anyone living out of the city fearfully low.—Address Presentiment."

Hurrah! When rummaging up some old papers yesterday we found our long lost Tichborne Bond for £100. It cost us exactly 100 per cent. discount, and as the security is now selling at 80 discount we make 20 per cent on an investment of Nothing. Not a bad business.

The stokers of the Argentino Gas Works struck work in a body on Wednesday evening owing to some jealousy of the new Manager. Thanks, however, to the energetic measures immediately taken by Mr. Woodgate, the customers of the Company suffered no greater inconvenience than a diminution of the pressure for a short time. By 11 o'clock yesterday morning Mr. Woodgate had everything arranged and new hands secured.

The next thing at the Colon Theatre will be a Zarzuela company. It opens on the 6th prox.

Seven hundred patacons have been collected in Rosario for the British emigrants from Paraguay. Very good indeed.

Not a blessed authentic word can be learned us to what has been done in Parana by the President, his pet General Ivanowski, and his pet Minister of War. President Sarmiento is expected back to-morrow; and next week will, no doubt, tell a great deal as to how events in Entre Rios are likely to turn out.

Mr. Daws, the famous librarian, delivered the very latest European Weeklies to his customers yesterday. His Subscription List for the coming year of grace 1874 closes to-day. Take notice, reading Public.

We received yesterday the very latest papers in town—the *Times* of the 21st October and the *Cork Constitution* of the 22nd. They came direct from the Cove of Cork in Mr. Fulton Mendez's splendid new cattle steamer the Norte, which made a magnificent run out direct from the South of Ireland. We congratulate you Mr. Mendez, and thank you and polite Captain Maine very much for remembering the STANDARD. The *Constitution* says Baroness Burdett Coutts has offered to defray some law-expences for the Claimant to amount of £42,000. Capt. Maine made a fine run of 28 days from Cork to Montevideo.

Cheap Italian opera. All the lyric artists left in town since the departure of the Colon and Opera House companies have combined to form a company, which will make its debut to-morrow night at the Variétes Theatre. Madame Escalante is 'prima donna,' Madlle Stoika contralto, Ambrosi tenor, Martineau baritone, and Trivero basso. Madame Terzano is second prima donna. The entrada is only 15 dollars. This idea of cheap Italian opera pays splendidly in London after the season, and ought to pay well here. All the artistes are already most favorably known to our public.

The Provincial Government has come to some very energetic conclusions as to how rioters at elections shall be dealt with in future. We are glad, for the sake of the country and all parties, to hear this. The River Plate is now quite enlightened enough to insist on its elections being held in a decent way.

Sir Narrow gauge Robertson, C.E., has thrown up the Chaco survey, and Mr. Tarnassi, C.E., will probably be named to follow up the business.

Messrs. Michael Dufly and John B. Dowling are the first two names on the 'terna' sent in from Carmen de Areco for new Juez de paz of that district. Both good men and true.

PARIS LETTER.

(From our Own Correspondent.)

October 14th.

Candidates for the possession of France are sparing no efforts to keep themselves before the eyes of the people. First comes the carte de visite, with photograph, from the Prince Imperial; a promising boy in evening dress, with the plebiscites, their dates, the number of votes recorded for his papa, and which allotted him the throne for ever. Against this is another photograph of the prince, with 'Second December—Sedan, Alsace, five milliards,' in red type. Henry V. continues to be coupled with Pio Nino, though this relationship is said to be for the moment inconvenient. Some confectioners sell Henri V. buns, which though not 'hot' are 'cross.' It is a small cake, the pastry of which is very white, and the surface dusted with sugar in the form of a cross interlaced by the Roman figure five. The Republicans have also secured the services of pastry cooks, as a species of Bretagne 'gateau' is sold, with young France holding a banner, on the three folds of which are inscribed 1789, 1848, 1870. In addition, there are pocket-handkerchiefs with the printed likeness of Thiers, and no end of cordials and syrups called after him, which the royalists must regard as 'bitters.' The portraits of the Comte de Paris and his countess have disappeared like magic, since the comte returned to the fold, from the shop windows.

The Municipality is occupied with a gigantic artistic proposition, nothing less than converting the promenades of Paris into a vast school of art. The military quarters of the capital would be occupied with the statues of grand soldiers—those who conquered the French excepted; the parks and gardens, to mythological statuary; the Champs Elysees to statues of French Rulers, commencing with Clovis, and culminating at the Triumphal Arch with Napoleon I. The royal ladies ought not to be forgotten; Fredegonda for example, she would look expressive in marble. Statesmen, historians, philosophers, &c. would find a local habitation in streets or would serve as 'refugeoirs' or lamp posts. The 'Sun-King' Louis XIV. is at present illuminated with four lanterns in a square near the Bank. The only draw back to this Munich form of street-decoration is, that the modern Latins might some day resemble the old Romans in their views of object lessons in metallic history, by smashing up the brouze, and converting it into shovels, tongs, pots, and kettles, as was the fate of the statue of Sejanus, before the sovereign people laid hands on the original. The Communists are not lovers of art, but they might borrow a lesson from the Romans, not to disfigure a whole statue as was recently, and as is generally done, but having struck off the head, replace it by that of the idol of the hour.

Strange to say, one of the chief attractions for Parisians at this moment is to witness the 'immersions' connected with the newly opened Baptist church. The peculiar form of 'administering Baptism to those who are of riper years' strikes them as being extremely original; but they are quite reconciled on learning it is an English sect. John Bull is credited with three hundred religions, but only one sauce.

In 1871 3596 men and 894 women committed suicide in France; but this total must be left far behind by more recent statistics, as time and the circumlocution office will show. More than one-half of the total were bachelors; 676 were widowers, 484 widows. Only 35 per cent. of the suicides were individuals inhabiting cities and small towns. Of the total, 536 were the consequence of physical pain, 651 of debauchery, 369 of misery, 620 of family differences. None are set down to love. Shakespeare is thus right: "Men have died from time to time, and the worms have eaten them, but not for love."

A curious change is taking place in the class of goods sold in shops, the proprietors of which seem inclined to act on the proverb, that of not putting all their eggs into one basket. In some of the most fashionable quarters there is a mixture of wares, where hitherto the practice was to vend only one description of goods. Drapers' shops, for example, sell 'sherry as it is drunk in England,' or 'tea as it is taken in Russia.' Jewellers are encroaching on 'objets d'arts,' and stationers are monopolising the cutlery and basket business. Grocers are becoming poulterers, fruiterers, and 'marchands de legumes,' and butchers vend soup and cooked meat. Sugar-bakeries are becoming toy-shops, and newspaper-stalls trade also in hot coffee, milk and chickweed for birds.

A semi-official journal announced in one part of the paper that the Government had requested Garibaldi "not to prolong his stay in Paris," while in another that the General was busy with his goats and vintage in Caprera.

A shopkeeper announces a considerable reduction in his goods—a clearance sale; in a word—in consequence of the probable return of Henry V. John Gilpin is prudent to decamp before the trouble commences.

Barnum is said to be within our walls; being in search of novelties his hotel is rumored as undergoing a siege from giants and giantesses, dwarfs and living human skeletons, persons born without eyes, or only with one; a man has turned up with a nose the length of his foot, and another who has feet for hands, and hands instead of feet. Barnum is just the individual France requires to export some of her curiosities of which she has a plethora. No better authority exists on the 'gas-bag question,' being all his life absorbed in raising the wind, he merits to be consulted on trans-Atlantic ballooning.

The manufacturers of 'articles de Paris,' those elegant nothings that everybody buys all the same, have been brought to a stand still. Said articles displayed a 'fleur de lys' in a variety of insinuating fashions, but as Henri V. is not likely to reign over us, the designs must be replaced by the insignia of 1739. As misfortune never come singly, a Smeltungus has discovered in Switzerland a banner taken from the French at Pavia, that is not white, but only a portion of it consisted of white bands. However, the Count de Chambord's 'honor' is bound up only with the white banner and plumes of Henri IV., though his Right Divinism is ante-dated to the Capet accession at least.

There is one means, which if extensively practised might have a decisive effect on the chances of the restoration of Henri V.—namely, the alleged circulation in the Faubourg St. Germain of two franc pieces with his image and superscription. "Alas," said a workman during the reign of the Grand Monarch, "his image is everywhere except in my pocket."

The only almanachs that have yet appeared are those issued from republican presses; the covers of these annuals for 1874 are all in tricolor patterns; in some cases tricolor bouquets are placed on biers.

It may be owing to the 'existing institutions,' but the hares now supplied to the Paris market are quite diseased, resembling very much measly pork; in addition, parts of the body are covered with small tumors, which on being opened are found to be full of worms. These remarks apply to the hares which come from the north of France. Fortunately this food supply will not be lost, as there exists an association of men of Progress, very properly affiliated with the Zoological Gardens Society, which has no objection to eat all kinds of diseased animals so long as the flesh is not putrid.

An anecdote of Nelaton. Arriving home one night rather late, during the Carnival season, he surprized two masqueraders, young lads, throwing stones at, and breaking his windows; he caught them by the ears, and demanded why they so acted; "for the good of trade," was the blubbered reply. The doctor then laid on them with his cane, assuring the delinquents he acted also, "for the good of trade."

ON 'CHANGE.

Nov. 20th, 1873.

Ounces	400
Sovs	122½
Pats	25
Nat. Bonds	76½
Cedulas	82½

There was a marked reaction in the stock market to-day. Cedulas opened at 82⅛ and closed at 82½. The purchases for the end of the month were also large. It was noted that the Cedula King bought freely, as also some brokers who never speculate. Many attributed the improvement of the market to the news from Europe, and doubtless it may have had something to do with it, but the real secret lies in the fact that fresh money is coming daily on the market, and two of the private banks are discounting trade paper. It is satisfactory to note that the improvement is not violent but slow. Exchange keeps rising; bills were done to-day at 50½ although the rate cannot be quoted higher than 50⅛d to 50¼d. On Antwerp several were taken to-day at 5.39, it was said, for Montevidean account. The National Bank discounts are at last beginning to tell on the market; f 40,000 pats. in bills offered at 15 and even 18 were done at the Nat. Bank at 12. A good deal of first class trade bills are going that way and the Provincial Bank Directors seeing how the current runs, launch out the new specie bills and discount freely every good bill offered. These are unerring signs of an improved market, and although for the rest of this month things may hold pretty much as they are, still for the end of the ensuing month, there can be little doubt that matters will improve and improve considerably.

The North, Captain Maine, entered last night: she is Mr. J. J. Mendez, new steamer; she made the run out from Ireland in 24 days, and what has seldom occurred in the River Plate the latest European papers in the Plate to-day are from Ireland. In another column we give a summary of the latest European news taken from the Cork *Constitution* Oct. 22nd.

The Western Railway directors declined to-day to open a station at the head of the Wanklyn avenue, on the ground that the station must be at the crossing of the Rosario Railway.

Mr. Mair, who superintended the building of Mr. Mendez's steamer, North, was welcomed on 'Change to-day; also Captain Maine, of the same steamer.

The *Times* of the 21st, and still later the *Cork Constitution* of the 22nd, give the following respecting the London money market up to that date—

"Monday Evening.

"*Consols remain at* 92¼ to ⅜ *for delivery, and* 92½ to ⅝ *for November, and* business has been quiet in all departments of the Stock Exchange.

"There is still an absence of discount demand at the Bank, but the rates in the open market have shown more tendency to approximate towards the minimum, although in three months' bill transactions have been effected at 6 per cent, and in six months' bills at ½. In the Stock Exchange the terms have been influenced by further operations on the part of the Bank to withdraw some of the surplus floating balances, and are quoted 4 to 4½ per cent for loans from day to day, and 5 to 5½ per cent till the November account.

"Advices from Vienna indicate that it is in contemplation for the Government to release some of the financial establishments there, which last year combined to lease from the Government large tracts of property at rates involving, in the present situation of affairs, a heavy loss. The consequences resulting from these engagements (which were contracted in the height of the plethora) have for some time been viewed with much dread, and should the Government now relieve the establishments in question, the step, it is said, would probably put an end to the crisis.

London Stock Exchange, Tuesday.

"There has been a very moderate demand for money in discount market to-day, and with the large amount of capital now offered rates ruled easy, at 6⅛ to ⅜ per cent, or ¼ to ½ below the official minimum. At Bank discount office business is almost at a stand still. 16,000 sovereigns from Hong Kong were taken to the bank. On 'Change all bills were offered. Bar silver flat, 58⅜. Mexican dollars 57½ pence. Stock market ruled dull until late in the afternoon, when a report that the exchanges were made favourable to this country imparted a firmer tone all round. Business continues very limited in all departments. Consols unaltered; new and reduced ⅛ lower. Exchequer bills receded 9 to 4.

New York, Oct. 22nd.

"Mr. Merriam, a member of the Banking and Currency Committee, has had an interview with Mr. Richardson, the Secretary of the Treasury. They both considered the present condition of affairs to be very hopeful, and regarded the financial disturbance as at end. Mr. Merriam advocated immediate legislation for the resumption of the currency and free banking.

"Closing prices.—Gold closed 108½; Exchange on London 109⅜; U. States 5-20 Bonds, 1865, 108; ditto, 1867, 112½; Five per Cent Funded Loan, 1871, 106⅜; Central Pacific, 92; Illinois, 93; Erie, 45½. Cotton, 16½; petroleum, 16½; flour, 6 50, 6 70; corn, 60; red spring wheat, 1,42.

The Magellan telegram to the STANDARD was the first news in town this morning. The news was hailed with the greatest satisfaction by all, since most people anticipated a further rise in the Bank rate. The Liffey seems to have made a good run out to Rio: she may be looked for on Saturday.

Mr. A.B. Blandin, money broker of Montevideo, was welcomed on 'Change to-day. He reports things in Montevideo 'statu quo,' awaiting the news per Magellan.

It was announced on 'Change to-day that Mr Mardoqueo Navarro has been named agent in this market of the great Chilian Mutual Insurance Co., called the Porvenir de las Familias. The office, we believe, will be in Calle Mayo, Messrs. Llamas and Co., the Porvenir agents having resigned.

To-day the papers ratifying the arrangement between the Platino Brazileira Telegraph Co. and the Brazilian Gt. Western were signed by the shareholders. This paper has to go to London to enable the Home Board to send out the bonus shares to the River Plate. The call made on the shares is now being paid into the Mercantile bank.

In reference to the Central Uruguay Railway the prices yesterday altered our quotation of the profits, which should be 9¼ per cent. per annum on cost of construction.

The Colina, Captain Marr, entered Montevideo to-day, having, as usual, made a capital run out.

The Biela has brought to Montevideo a large consignment of rails, &c. to Messrs. Lanus and Fynn for the new tramway being constructed from the Corrales to the city.

The Brazilian Government has very liberally ordered that the steamer Paranaense be got ready to help the Hooper in the laying of the cable from Pernambuco to Bahia.

The French mails per Erymanthe came up this morning, and were delivered early. She has brought out 260 passengers, besides a large assorted cargo.

A passenger per Tiber writes from Rio that they have had a fine passage up. They passed an English vessel ashore, name unknown. The Tiber took from Montevideo 1292 cases preserved beef; this, we suppose, is from the Maua manufactory in the Uruguay.

The Montevidean firm of Hugon Hermanos is dissolved. Mr. Albert Hugon winds up the affairs of the late firm. Also in the same plaza the firm of J. A. Rayces and Co. by order of the court.

It seems that a telegram from Valparaiso to Montevideo stopped the steamer Patagonia until the arrival of the ss. Chile; the reason for this is not given.

The European mail of 20th Oct. gives the following:—

"It is not often that River Plate wool finds its way to the London wool sales, but on Oct. 14th 20 bales greasy marked JF&Co were sold at 8½d. for Merino; 7¾d Mestiza; 8¼d lambs; 6¾d pieces; also 11 lbs. skins with wool on, mark JF&Co over D, 10 of which were taken at 8¼d and one a 6¼d per lb.

"The first meeting in the bankrupt estate of Joachim Viscount de Palma has been held before the Bankruptcy Court. The bankrupt is described as of 2 New Broad Street, agent to the Governments of Araucania and Patagonia. The statement of affairs shows liabilities—unsecured, £5,222; ditto, secured, £707; rent, £13; assets, 'nil'.

"The packets of the Pacific Steam Navigation Company will for the present touch at St. Vincent, Cape de Verd, on their voyages from Liverpool to South America. Advantage will therefore be taken of the opportunity to forward mails for St. Vincent by these packets, and they will be made up in London on the evening of every Tuesday until further notice. The rates of postage will be the same as by packet, via Southampton."

The following flattering remarks about the City of Buenos Ayres Tramway we extract from *Herapath's Railway Journal*, received per last packet. It is a positive fact that the B. Ayres Gt. Southern Railway and now this City of B. Ayres Tramway by their excellent management and good results are the main support of Argentine credit in London—

"City of Buenos Ayres Tramways—The half-year's dividend has been officially announced in the report, issued during the week at 8s. per share on the 1st and 2nd issues, and 4s. on the 3rd the 3rd having been only partly paid up during the half-year. The dividend is at the rate of 16 per cent per annum, and is distributed free of income tax. It absorbs £14,600, and the profits for division being £18,000, £1,000 of the surplus is carried to reserve, which now amounts to £8,000. Out of the balance left the loss from the Barracas station fire is met.

"The present position of the Company is therefore satisfactory and agreeable enough; flattering also to the condition of Buenos Ayres. What will be the *future* condition of the Company? will it pay as large a dividend? It must be remembered that there will be a much larger capital to pay upon, but, on the other hand, a new tramway has been purchased at a reasonable price, which is now yielding a profit that will become the Company's. Another circumstance in favour of the dividend is the abolition of the expensive and useless trumpeters. A third, that the South Barracas extension will be opened and become productive. A fourth, that the traffic on the existing system grows. A fifth, that the rate of working expenditure is less than it formerly was. A sixth, that the present dividend of 16 per cent per annum is considerably within the Company's means. We cannot pretend of course to say what the future rate of dividend will be, but a fair estimate of probabilities indicates that the present rate may be maintained. The Directors, however, appear to be a very cautious body, and disposed to establish a considerable reserve fund, in which we think they are quite right. All such Companies should be well protected by reserves equal to meeting any contingency. It is not, however, necessary to reserve an excessive amount of the profits but only such as will constitute a good reserve.

"For the three previous half years the Company paid dividends at the rate of 12 per cent. per annum, and accumulated a pretty fair reserve fund. They have therefore done very well up to the time, and with the removal of the absurd expense above referred to, and by virtue of having made a judicious purchase of the Mendez trams, together with the maintenance of the profits of the existing system, we trust the present excellent rate of dividend will continue. At all events we think we can congratulate the Proprietors upon being the owners of a very good and carefully managed concern."

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very lege amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the example of their firm in Montevideo, the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUÁ & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at the places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of

Scrofula or King's Evil,

& Dumb Ague.

As a means of building up the consiitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula; but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to mal fnuctional operations —o— 46

ROWLAND'S MACASSAR OIL prevents the hair falling off or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft, pliable, and glossy. Price 3s. 6d., 7s., 10s 6d, equal to four small, and 21s. per bottle.

IMPORTANT CAUTION—Ask for Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each bottle has a glass stopper instead of the cork as formerly. All with the cork are spurious imitations.

ROWLAND'S KALYDOR removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the skin. During the heat and dust of summer especially, and in cases of sunburns and stings of insects, it is of the utmost use. Price 4s. 6d. and 8s 6d. per bottle. Ask for "Rowland's Kalydor."

ROWLAND'S ODONTO, or Pearl Dentrifice, preserves and imparts a pearl-like whiteness to the teeth, eradicates tartar and spots of incipient decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s. 9d. per box. Ask for "Rowland's Odonto."

ROWLAND'S ESSENCE of TYRE never fails to produce immediately a perfect change in red or grey hair, whiskers, eyebrows, &c., to a beautiful glossy and permanent brown or black, which colour remains so durable, that neither washing nor perspiration can remove it. Price 4s., 7s, 6d., and 10s. 6d, per bottle.

All these articles have been used and justly appreciated by all the Sovereigns and Courts of Europe, and the Pope of Rome, and the aristocracy of the world, during the last 70 years, being of inestimable value to those who have once used them. They are sold by all chemists, perfumers, and bazaars throughout India, Australia, the Colonies, and South America.

PONTEVEDRA
IS a new Town, established in the centre of the celebrated Gahan Estancia, in Merlo not even seven leagues

WEST of this go-a-head City, and about a league and a-half from the Western Railway, South of Moron and Merlo, and

CLOSE to both of them. In either of those go-a-head Towns (they will soon be Cities), you cannot purchase a decent Plot of Building

GROUND under 30,000 Dollars CASH. In Pontevedra you can get a well-situated Building Plot of 500 Square Yards, for only

1050 DOLLARS, "ON TIME," paying for it by little and little, 70 dollars each month, for 15 months. Sites are guaranteed for Church, Schools, and

A FINE Plaza. The Land surrounding the Town of Pontevedra, all high ground is a rich, alluvial, inexhaustible, loamy soil. It

SPEAKS for itself. 20 Squares nearer to Moron you cannot buy as good for 15,000 Dollars CASH, per Manzana; while this, which is much

BETTER Land, and near Pontevedra, can be had, on time, for 3,000 Dollars per Manzana, each fronting a Road; payable by

LITTLE and Little, only 200 dollars per Month, in 15 months. If you buy Four Manzanas you get a Plot of Pontevedra, 10 by 50 yards,

FOR NOTHING. 10 Manzanas make a snug homestead, equal to about 18 English Acres; but no Land like it there; they give you a

RIGHT to Three Plots, or 30 by 50 yards of Pontevedra, that cost 3,150 Dollars by themselves,

YOU could not buy 18 Acres of one-half as good Land in any part of England under £50 per Acre; that is, £900 Cash. While here, within 21 miles of this

GREAT Commercial City, and near a Railway, you get 3 Building Plots and 18 Acres of Primest Land, for £245, on time, payable

IN 15 Monthly Instalments, of about £16 16s. 8d. There are many among us who can easily invest that sum monthly, and

MIGHT invest it worse. To go and see the Land your Carriage Fare from Merlo will be paid by Fredk. Dennehy, if you call between 10 and 5 o'clock at
